Enrichment Class Descriptions

Alpha Friends

This course introduces children to Alpha Friends, the phonics program used by Kindergartens in local districts. Letters have a corresponding character and movement which help children to learn phonics by using different types of learning styles: visual, auditory, and kinesthetic. They use their knowledge of the Alpha Friends to put letters together to make sound blends, sound out simple words, and practice writing

Art Lab

Your child will have the opportunity to create memorable works of art focused on a new artist or method each week. From Jackson Pollack-style paintings to Kandinsky's use of shapes and color, children will be sure to have fun exploring the many techniques!

Crafty Kids

Children in this hands-on class learn a new crafting technique every week! Activities will include sewing, painting, scrapbooking, bracelets, paper crafting, and more!

Fine Motor Fun

When given exposure to fine motor activities, children show significant improvement in their fine motor skills, which are fundamental to school readiness. Children will strengthen hand muscles, improve hand control and build confidence in fine motor skills.

Foundation Station

Building a strong core and working fine and gross motor skills are the FUNdation to success in the classroom. Children will develop these skills as they rotate through table and carpet play-based stations in this engaging and active-learning based class.

Garden Explorers

Does your child love nature? Give them the chance to explore the garden with our resident green thumb, Miss Chernishov! Each child will help cultivate our NCCDP garden & create their own garden project to take home.

Kindergarten Skills

This summer program taught by our credentialed reading specialist, Mrs. Jones closes the gap in your child's learning cycle as they transition from Jr. K/Kindergarten into first grade. Students will expand on the necessary skills to be successful in mathematics, reading and writing comprehension as well as social-emotional development. To be eligible students must have completed one year of either Junior Kindergarten or Kindergarten and will meet TWICE weekly. Enrollment in the class is for both sessions, lasting 7 weeks.

Little Chef

Does your child like to help in the kitchen? Little Chefs assist in making a variety of dishes that are easy, tasty, colorful, and kid-friendly! Recipes include main dishes, finger foods, desserts and beverages. Some unfamiliar foods will be introduced, so this class is highly encouraged for those with picky palates.

Little Movers & Shakers

Come dance and sing your way through a fun half-hour with our ever-popular music teacher, Mr. Garixe! He plays and sings songs for children to sing along to as they enhance their musical ears and build confidence through participation.

Little Scholars

Designed for students who will be going off to Kindergarten next year, this class supports and builds upon the foundational skills that boost confidence and academic success. Little Scholars offers study routines, tips for parents and overviews of typical entrance exam scenarios in a small group setting. 1:5 teacher- student ratio.

Little Scientist

Little Scientists will have a blast as they experience the wonderful world of science! This class introduces vocabulary such as experiment, hypothesis, procedure and result. The class will encourage and guide children to ask scientific questions while participating in the process of investigation and making careful observations to explain their results and outcomes.

Read to the Core

Literacy is the foundation on which academic success is built. Taught by our credentialed Reading Specialist Mrs. Jones M.S.Ed, this class includes research-based activities and lessons that build, promote and encourage the growth of the whole child. Focus will include: explicit and systematic phonics instruction, expanding vocabulary, decoding skills, sight word practice, critical thinking, and writing strategies. *Please note that the class will meet TWICE weekly. Enrollment in this class is for both sessions and lasts 7 weeks.*

Yoga

Start your child's day off right with balance, peace and sun salutations. Students will be introduced to yoga, using imaginations and increasing body awareness to explore a variety of poses. Yogis will practice breathing techniques, proper form and explore lots of creative movement, so come stretch with us!
